The Blue Ridge Concern.

The Oconee Courier, published at the pres ent terminus of the Blue Ridge Road, says: To get any tangible information as to the present condition and future prospects of this great enterprise, appears difficult. in Walhalla on last Friday night. They "are now gone in the direction of Knoxville, with a view of examining the route No work of any consequence has yet been done; a mere handful of dirt moved to save the contract. We hear there is a delay on account of machinery, and the real labor will not be undertaken for some days. We rather think the securing the other five millions, which is to come, has something to do in delaying the machinery. We do not doubt, however, but the road will be built, and a beginning in earnest be made before Christmas."

A MEETING of the friends of a railroad extension from Spartanburg, S. C., to Ashe ville, N. C., will be held in the courthouse at Spartanburg, on the evening of Tuesday November 16, at 7 P. M., for the purpose of this important railroad. All friends of the statement already given of the receipts of enterprise are invited to attend. Persons the city, many amounts are included which attending the meeting will be passed over by the disaster to the steamer Stonewall, and should not enter into a plain exhibit of curthe Spartanburg and Union Railroad free of charge. This Asheville road is, to our mind. actually received by the Treasurer, and are of more importance than the Bine Ridge scheme. It should cost less and do the the year to stand on its own bottom, and State more service. We hope that the meeting will give the project a tangible shape.

THE Unionville Times speaks very highly of the management of the Spartanburg and Loan, \$10,500, from bonds receivable, and Union Railroad. The road has been rebuilt without assistance from the State or the the plain calculation that we desire to make; stockholders, and is now, with its machin ery, in good running order. The guarantee the floating debt account, or borrowed of the State is secured by a first mortgage, and arrangements will probably be made soon to pay the interest on the bonded debt. The Times says-and we believe with perfect truth-that the prosperous condition of the road is due entirely to the efforts of President Jetor

THE famous Syllabus of errors published by Pope Pius IX., in 1864, will probably occupy a good deal of the attention of the approaching Council, and we accordingly print it this morning. It is denied, however that there has been any intention, as many had supposed, of erecting the eighty damnations of Syllabus into articles of faith.

THE census of Anderson County is com pleted. The population is: Whites 14,072, colored 9053; total 23,125. In 1860 the population was: Whites 14,286, colored 8587 otal 22,873. There is, therefore, a falling off in the white population, and an increase in the colored population of the county.

THE Radicals, thanks to the State constabulary, elected their candidates in Abbe ville on Wednesday by 286 majority. The disturbance at Calhonn's Mills was caused by an attempt of the negro guard to drive the whites from the polls. This is Radical liberry with a vengeance.

THE Barnwell Journal has been enlarged and shows in its columns unmistakable evidences of growing prosperity. The Journal is a good newspaper, carefully edited and well made up, and in typographical accuracy has no superior among the country press.

Ir was owing to a blunder in our compos ing room that an article on the Longshoremen's strike, published in Friday's News, found its way, a second time, into our columns on Saturday las

mary last the Clark Conneil made up their The Longshoremen's Protective Union Assudget, or estimate of receipts and pay ments, for the year the statistics of which we night and adopted the following resolution: Resolved, That no member of this Union are considering. Upon their estimates the Tax bill was passed, and we believe that ample provision was made for all proper and ecessary expenses. Comparing, then, the stimated income with the actual income and the estimated outlay with the actual out-

required. The Union then determined not to work on any foreign ship until a steve-lore who had been discharged was restored to his place. And now they solemnly resolve that bey will not work at all under any stevedore who is not a member of the Union. This is, to all intents and purposes, a deliberate at-Whether there is, or is not, a respectable and trustworthy stevedore in the Union, is to be of no consequence. The Union men declare dores, and they hope to be able to force the

tion the right of the Union longshoreme to control their own body. They may fine their members and rule their members as they please. But this does not concer them They ask now that the control of all the storage business be given to them, and to them alone. We do not know that they have done anything to merit this trust. Vio lence, threat, and unreasonable claims have characterized their action from the very beginning. And while we are anxious that the longshoremen and all other workmen should have every proper privilege, we consider it no less important that the employer should have full protection in the enjoymen of the right to engage whom he pleases, and upon the best terms he can make.

The experience of the past few days shows clearly that the Union longshoremen are going from bad to worse. Nor have they reached their halting point. It is, then, high time that the shippers and shipping agents should take steps to protect themselves and those whom they represent. Fire must be fought with fire; proscription with proscrip tion. What the longshoremen have done they are responsible for. The employers must for good and all, all control over their own actions and their own property. The most simple plan is for the shippers and shipping agents to determine not to employ a "Union" work a cure, in the interest of the hundreds of steady men who are now seeking work. It can be done if the shippers stand together if any employers, high or low, are so weal as to act against their own interests, and the interests of the working classes, by agreeing to what the Union demands, let them understand that they, in the face of the commu nity, must bear the brunt of whatever comes in the fature, of their greed and want of pluck.

The Uniquelle Times says that the cen 'ergy, tact and ability" exhibited by Governor Scott in "raising the means and credit "of the State finances in order to complete "the Blue Ridge Railroad, will be to him a 'everlasting monument."

The election in Georgetown passed off quietly. The Times says that "no interest whatever was manifested by the whites, who kept away from the polls, the negroes "generally voting." The result has not yet

ACRES.—TO CAPITALISTS.—
PLANTATION in Orangeburg District, forming a part of the estate of the late Colonel Keitt, consisting of about 600 acres; 350 of it cleared. It is watered by Lyon's Creek, a large and never-falling stream. Soil rich, red clay, well adapted to cotton, corn, wheat, root crops and clover. Climate healthy all the year. Splendid range for eattle; the neighborhood attractive—the adjoining plantations owned by gentlemen who reside there and secure good order. The buildings were burned, but lumber mills being near, they could be replaced cheaply. A large State road connects it with Lewisville, South Carolina Railroad, sky miles distant. The above has a splendid chance for those desiring to form a beautiful farm in a pleasant, healthy section. In 1866 these lands were returned at \$20 per acre. Will be sold at half that price. For terms apply to Mrs. LAU. RENCE KEITT, Society Hill, S. G.
